

How to get to Jamborette

Friday will be a busy period with over 1000 participants arriving to site. In order to reduce the impact on our neighbours and efficiently get everyone to their sites a one-way system will be in place.

Please ensure you enter via the Scheyville Rd gate. There will be no entry to Jamborette via the Old Pitt Town gate. We ask that you follow the route in the diagram to avoid right hand turns that may cause traffic congestion.

Note: Google maps will route you to the Old Pitt Town Rd gate. You will not be able to enter via this gate.

Please follow our traffic controllers' directions. There will be zero tolerance of poor behaviour or abuse. Any unsatisfactory behaviour will be logged.

Parents/Carers

- Only arrive on site after 4pm
- Liaise with your scout leader to ensure you arrive with or after you leaders. We cannot have youth on site without their leaders.
- Please car pool where possible to reduce the number of cars
- When you enter the site traffic control will direct you to the appropriate drop off point.
- A **drop and kiss** system will be in operation. Leaders will be available to guide your scouts to their campsites.
- Please leave promptly after your scouts have exited the drop off point.

Venturers/Leaders/Rovers/Adult Helpers

- You will be directed to your camping area
- If your vehicle is staying on site you will be able to park near your campsite. All cars are to be parked in an orderly fashion on boundaries and not within campsites.
- If you need to move your vehicle you will need to park in the designated parking area. Traffic control will be able to assist with this.
