

Greater Western Sydney Scouts

Adventurer Green Level Construction - Jamborette 2016

Scouts! This is a special activity as it runs over all the weekend's sessions. By the end of the weekend it is anticipated that you will have earned your green level construction award.

I am "Trekker", the scout leader coordinating this base. We will have a maximum of twelve scouts engaged in a grand construction to blow the minds of the rest of your troop! Last year the team built a ten meter span trussed bridge! As well, you get to learn lots of new knotting and rope techniques.

It's up to you, but perhaps this year we might do a giant catapult, a massive tower or a 50m rope bridge!

Prerequisites:

- You **need to be able to do a good strong square lashing**....not just any old square lashing.
- Currently working on Blue Level Campcraft knots and lashings.
- You and your troop need to supply lots of spas and ropes to contribute to the overall supply to keep you engaged for the weekend.
- Ability to act as a patrol leader for part of the weekend.
- Recommendation from your scout leader.
- Email application to me no later than 2 weeks before Jamborette – **deadline 16th September.**

The first 12 scouts in who meet the prerequisites get the gig. Any questions or comments please feel free to contact me.
